

The 25th **DOJO** Lecture

Role of Nuclear Energy in Switzerland

- Political situation, a long-term operation, decommissioning and research & education -

Horst-Michael Prasser

Fri. Nov. 25 15:05-16:35

(Including Q&A)

1F, Meeting Room North Bldg.1

Prof. Horst-Michael Prasser graduated from the Moscow Institute of Power Engineering 1980, and obtained his PhD 1984 at the College of Engineering Zittau. He is Professor of Nuclear Energy Systems at ETH-Zurich since 2006, and Head of the Thermal Hydraulics Laboratory at Paul Scherrer Institute since 2007.

His research fields include thermal hydraulics, two-phase flows, instrumentation and advanced experimentation, code validation and reactor safety.
