

# Radioactive Waste Disposal

– Diffusion and sorption databases for safety assessment analysis based on a mechanistic understanding of key geochemical processes –

**Nov.29 Tue. 14:00-15:30** (Including Q&A)

Meeting Room 1F, North Bldg.1

## Luc Robert Van Loon

**Paul Scherrer Institut, Villigen, Switzerland**

Dr. Luc Robert Van Loon studied agricultural and chemical engineering, and obtained Ph.D. in Agricultural Sciences from the Department of Agriculture, Catholic University Leuven, Belgium. Since 1988 he has been working at Paul Scherrer Institut, Villigen, Switzerland, where he is now the Group & Project Leader, Laboratory for Waste Management. His research interests include the degradation of polymeric materials in repository systems, the environmental behavior of radionuclides, Energy & Environment, and Geochemistry.
